SKIN APPLICATIONS

- This Mac-life-Plus natural cream will greatly support and strengthen your Immunsystem and its specific nutrients (minerals & trace elements) help that skin problems disappear very quickly – see also bullet list of effects below

SUMMARY OF EFFECTS:

- Promotes rejuvenation of the skin
- Strengthens your skin and reduces wrinkles
- Gives you a more youthful and vital appearance
- Supports the immune system, especially in those cases when the body is not strong enough to do so on its own, e.g. because of lack of important nutrients.

It has been proven in many studies and life tests, that certain Nutrients and Trace elements have a great and powerful healing effect – some examples:

- ✓ In case of Cancer: Natrium/Sodium – Sulphur – Boron – Platinum – Selenium – Indium – Arsen – Kupfer – Germanium
- ✓ In case of Osteoporosis: Magnesium – Calcium – Silicon – Strontium – Boron – Manganese – Zinc – Nickel
- ✓ In case of Aids, HIV: Sulphur – Zinc – Selenium
- ✓ In case of skin diseases: Sulphur – Zinc – Silicon – Arsen
- ✓ In case of infections: Magnesium – Zinc – Boron – Kupfer
- ✓ In case of immune system deficits: Zinc – Indium – Phosphor
- ✓ In case of Allergies: Magnesium – Natrium/Sodium – Sulphur – Zinc – Selenium – Arsen
- ✓ In case of nerve diseases: Magnesium – Natrium/Sodium – Potassium – Zinc – Selenium – Arsen – Kupfer – Lithium – Chromium – Gold
- ✓ In case of Diabetes: Magnesium – Sulphur – Zinc
- ✓ In case of heart problems: Sulphur – Potassium – Boron – Selenium – Kupfer – Chromium

Many school-medical medicines we can find one or more of these valuable nutrients as part of its content, together with many chemical substances which cause normally many negative side effects. Mac-life-Plus natural cream contains next to the necessary 16 Nutrients another 12 Minerals and B12 Vitamin and is 100% organic and contains no parabens. Available bottle sizes:

A Mac-life-Plus natural cream bottle comes in a jar of 50 ml as cosmetic application

Contra indications and side effects:

Avoid eye contact (irritation); 3 test persons showing slightly increased hair growth on the treated spots of the body, due to a hormonal change in her body caused by pregnancy; No other contra-indications or side-effects are known

How to use for Skin application:

To achieve an optimum result, apply the Mac-life-Plus natural cream as follows:

- Apply a thin but complete layer of Mac-life-Plus natural cream 1x per day
- use a small **plastic** spoon, a **plastic** spatula or your fingers, after having first washed your hands
- The dried-up cream (dry after about 10 min.) must be staying on the skin spot(s) for at least 1 hour
- After this application time, you may wash off the dried-up serum with clean water after min. 1 hour – a longer time is also possible but has no further positive impact on the negative side effects. Mac-life-Plus natural cream offer next to the effectiveness of the crème.

Duration of treatment:

- Apply for a period of time which is needed – this may vary from person to person and also depends on several variables, like quantity of loss of hair, blood group a.o.
- First results may be seen after only 5 treatments (so within 5 days) but it may also take substantially longer in those case where e.g. baldness is at a high level and long-existing a treatment of 1 month or longer may be needed
- Relative health-improving speed depends also on your specific blood group: blood type 0 = 100 as relative number blood type A = 85% blood type B = 65% blood type AB = 50%

Appearance:

° **Thick application/facemask:** Mac-life-Plus natural cream is a white kind of cream and comes in a small flip-top bottle, which allows you to get the right quantity of cream. After application and exposure to the air, the cream dries up in about 15 minutes (depending upon temperature where the serum is applied) and leaves a white powder behind, which sticks quite well to the treated skin spot. After 1 hour (time may be extended without any problems or side effects), you may wash off the residues with clean water.

° **Thin application** Thin application apply anywhere needed for younger appearance, run into the skin. Spread thinly, so that the serum is practically invisible but still will give you the amazing skin-tightening feeling and effect.

Storage & Expiration Date: Keep in dry and cool place, avoid storage in direct sunlight. Keep away from children. There is an expiration date of 3 months after opening, please keep the bottle well and tightly closed to avoid that the serum dries out. Please note that Mac-life-Plus natural cream after longer storage (best-before-date 3 months after opening) without usage will show in the bottle on top of the white elixir a small layer of clear fluid (looks like water) – this is completely normal and after shaking before usage, the elixir will be evenly white again and ready to use.

Attention: It should be avoided that Mac-life-Plus natural cream ® comes in (direct) contact with metal of any kind, an electro-magnetic pulse, an electrical power source or a magnetic field, as the vibrational frequency of these mono-atomic Nano-particles are very sensitive to a magnetic field; to prepare a serum-water mix for dietary intake, please only use a plastic or wooden spoon to stirr.
